Allure® Insulatedware For Traditional Pellet System Applications

Make a Statement With The Timeless Beauty of Allure®

Give your meals a beautiful new look with Allure®—the insulated tableware that’s as stylish as it is functional. With Allure®, your traytop will deliver hospitality at every meal. As thoughtful as it is beautiful, Allure® has ergonomic touches that make tray production—and mealtime—faster and easier.

Wide mug grips have extra finger room for filling and drinking. Extra space around the entrée dome grip makes placement and removal easy, and its gently arching shape stacks easily to use less storage space while providing better food clearance.

Designed to fit every Aladdin traditional meal-delivery system, all Allure® products are fully foam insulated to keep foods hotter, or colder, longer.

The Allure® line offers five products to enhance your facility’s meal presentation: an 8-oz. mug; an 8-oz. bowl; a 5-oz. bowl; an entrée dome; and a soup dome. Each product is available in multiple colors. They coordinate beautifully with our room service tray, and can also be used with any flat cafeteria tray system.

The new Allure® insulated soup dome maintains soups or other hot foods that have a 180° input temperature at or above 140° for up to 80 minutes, so your soups, stews, hot cereals, hot desserts or extra side items *won’t* arrive cold at mealtime. It’s stackable to save space, with an easy-to-grasp, recessed handle.

Allure® works perfectly with these Aladdin meal-delivery systems:

- Heat On Demand Advantage®
- Heat On Demand On Tray®
- Heat On Demand Ultra®
- Heat On Demand 2®
- Heat On Demand®
- Insul-Max

Standard features of every Allure® product:

- Modern, contoured design compliments every tray.
- Made from durable, long-lasting polypropylene.
- Fully foam insulated.
- Designed for easy cleaning.
- Stackable, space-saving design for storage.

Allure® works with every Aladdin traditional meal-delivery system, and looks beautiful paired with Aladdin’s black Room Service tray (RST1). It can be also used with any flat cafeteria tray system.

Special Product Features

Allure® Entrée Domes

- More finger space beneath the grip for improved control.
- Spacious design offers more internal food clearance.
- Space-saving internal stacking feature minimizes the amount of space required for storage.

Allure® Soup Domes (Note: Disposable lid recommended)

- For use with Aladdin’s Allure® and Traditional 8-oz. soup bowls.
- Extends hot food temperatures for foods such as soups, stews, hot cereals and extra side dishes.
- Fits over bowls with disposable lids.
- Easy-to-grasp, recessed handle prevents damage during washing or handling.

Note: Continued use of disposable lid B71 is recommended on soup bowl when using soup dome in order to prevent content spillage during handling and transport.

Allure® Mugs

- Full three-finger grip for improved stability and comfort.
- Outer-fitting lid (snap-on design) keeps it out of the liquid inside the mug.

Allure® Bowls

- Designed to stack for preportioning and storage.
- 8-oz. bowl has a wider opening for ease of filling and eating.
- 5-oz. bowl is perfectly sized for smaller portions of hot or cold food (uses B42 and B44 lids).
- Outer-fitting lid (snap-on design) keeps it out of the liquid inside the bowl.

Note: Specifications are subject to change without notice.
