

FORM MEETS FUNCTION.

Versatile | Rugged | Quiet | Ergonomic

COMPLETE LINE OF TRAY CARTS

SC Stainless Steel Cart Series

Their bold, contemporary look is as stylish as it is functional. Inside, welded stainless steel tube framing gives these carts an enhanced core strength that also dampens noise. Ergonomically designed, they're built to provide easy-to-manuever, quiet service, by reducing noise, rattles and vibration.

Lightweight and sleek, SC Series carts make it easy to *quickly and quietly* navigate through busy kitchens, tight elevators and crowded hallways. Our complete cart line includes models that are perfect for every tray delivery style. Aladdin's SC Series carts are the smart choice for patient meal delivery and tray retrieval.

Aladdin's Newest INNOVATION

ON-BOARD Beverage Caddy!

with Caddy (Patent Pending)

STAINLESS STEEL CART SERIES

SPACE-SAVERS

Navigate through busy kitchens, tight elevators and crowded hallways quickly and easily with our space-saving models. Their smaller footprint is easy to move through tight areas. They're perfect for late tray deliveries and room service operations.

The sleek, contemporary design includes a full-length door handle that works great for employees of every height.

Space-Saving model
(1 Tray per Level)

SC SERIES FEATURES

- SCE Space-Saving models: 8, 9 or 10 trays
- SCS Low-Profile models: 10, 12 or 14 trays
- SCS High-Capacity models: 14, 16, 20, 24, 26 or 30 trays
- Welded stainless steel tube framing inside increases core strength and reduces noise.
- Built-in "QUIET" features include polymer door bumpers and tray ladder plastic inserts.
- Easy-to-remove tray ladders make cleaning fast, and no tools are required.
- Adjustable tray ladders fit many tray sizes, including:
 - Room service trays
 - Cafeteria trays
 - Advanced Meal System trays (SCS models only)

Note: Refer to SC Cart Specification Sheet for tray dimensions.

LOW-PROFILE MODELS

The stainless steel top on our low-profile models is a convenient work surface for transporting items, pouring beverages, and more!

DPR Upgrade Package
(2 Trays per Level)

Beverage and Condiment Caddy

PATENT PENDING

Now you can transport a range of beverages and complementary items such as sweeteners, creamers, extra mugs and lids, along with your tray-delivery carts – right to patient floors.

Our stainless steel caddy has a built-in rail to snap up to three storage bins in place, for fast access to condiments and lids.

Long, round-profile push handles are easy to grasp, ergonomic and make maneuvering easy! Caddies mount magnetically, so no tools or hardware is needed.

HIGH-CAPACITY MODELS

Save time and manpower with higher capacity carts that let you deliver and retrieve more trays.
