

## TECHNICAL SERVICES BULLETIN

### NEW Service Kits and Service Part Case Packs for Popular Aladdin Equipment

To better serve our customers, Aladdin Temp-Rite is excited to announce the availability of service kits which will simplify ordering replacement parts for many of our more popular pieces of equipment. These kits make it easier than ever to maintain your equipment for optimal performance and appearance. Your service costs are also minimized by replacing all the worn components in one service visit, preventing follow up service visits with additional charges.

#### MD Cart Bumper Kits

These bumper kits for our MD carts provide the necessary bumpers (four side bumpers and four corner bumpers) with the necessary hardware to replace all the bumpers on a cart. This will ensure your carts look their best and minimizes damage to the carts and any objects they may run into.

<b>13901</b>	MD Side Load Carts with a Single Door
<b>13902</b>	MD Side Load Carts with Two Doors
<b>13903</b>	MD End Load Carts with Two Doors
<b>13904</b>	MD End Load Carts with Three Doors

#### MD Cart Caster Kits

Our MD cart caster kits come with the casters and fasteners to install all new casters on your cart and will ensure your carts are rolling smoothly and the brakes are working properly when parked. Replacement of these items will improve the maneuverability of your carts, reduce strain on employees, and increase safety. All caster kits also include replacement anti-static strips to ensure no one is "shocked" while moving the carts. It is best to replace all these items at once if the effort is being made to turn over the cart for service.

<b>13897</b>	Four Caster Config with 6" Balloon Casters (includes 2 swivel and 2 rigid casters)
<b>13898</b>	Six Caster Config with 6" Balloon Casters (includes 4 swivel and 2 rigid casters)
<b>13899</b>	Four Caster Config with 8" Balloon Casters (includes 2 swivel and 2 rigid casters)
<b>13900</b>	Six Caster Config with 8" Balloon Casters (includes 4 swivel and 2 rigid casters)

## Dish Heater Tune-Up Kits

We also have tune-up kits for your DH07 and DH08 dish heaters which provide a fan motor, fan blade, power switch, heating element, high limit, thermostat, and springs. You can be sure your dishes are maintaining the proper temperatures and prevent the heaters from going down at inopportune times. All to keep those food temperatures up. The replacement springs also improve employee safety by preventing the need to reach down into a hot well to retrieve plates.

<b>13893</b>	DH07 two well - Mfg. date through 2012 (16 springs)
<b>13894</b>	DH08 three well - Mfg. date through 2012 (24 springs)
<b>13895</b>	DH07 two well - Mfg. date 2013 and later (16 springs)
<b>13896</b>	DH08 three well - Mfg. date 2013 and later (24 springs)

## Replacement Part Case Packs

To further increase the ease of ordering service parts, we are also now selling some of our more popular parts by the case instead of by the each.

Part No.	Description	Case Pack
